CRYSTAL CLEAR PERFECTION

CSQUARTZ : ABOUT US

CRYSTAL COAT

With multiple years of experiments and development, **CS Quartz** has established glass and ceramic coat layer of 9H+ and is durable enough to withstand against different elements and perform to the highest of standard for car enthusiast.

CS Quartz Crystal Coat is designed to deliver maximum long term visual impact, protecting against the elements and day-to-day use and have developed specific protection for different part of the car to maximize the protection and performances for your car.

CS Quartz Crystal Coat is environment friendly and is designed for a simple application at the same time completely eliminates the shortcomings of normal car wax : no significant protection, lack of shine, no antifouling effect, poor water repellent effect and poor durability.

For optimal effect each coating is applied professionally and to ensure the best of quality and to ensure the maximum protection for your car.

CSQUARTZ COAT PACKAGE

	Classic (3 Years Warranty)		Nano Pro (5 Years Warranty)		Nano Pro Plus (5 Years Warranty)	
* Coating Only / ** Package	*Coating	**Platinum 6mil	*Coating	**Black Optic 6mil	*Coating	**Advance Ceramic TiN 6mil
STANDARD SALOON	(RM) 1,900	3,500	(RM) 2,700	5,000	(RM) 2,900	5,500
LUXURY SALOON	2,100	3,500	2,900	5,000	3,100	5,500
4WD / SUV	2,300	4,300	3,100	5,800	3,300	6,300
MPV	2,500	4,700	3,300	6,200	3,500	6,700
Exterior Coat	7 H +		9 H		9 H +	
4 Steps Detail Polish	✓		✓		✓	
Window Glass Treatment	✓		✓		✓	
Interior Detailing	✓		✓		✓	
Wheel Detailing	✓		✓		✓	
Rubber / Plastic Trims	✓		✓		✓	
Chrome Liners	✓		✓		✓	
Headlamps	✓		✓		✓	

Warranty Coverage :

Watermark and Bird Dropping , Acid Corrosion , Paint Corrosion , Hologram Paint Defect , Water Repellency, Paintwork Cracklines.

* 5 years warranty for all **COOL SHIELD** window films. Terms and conditions apply.

CAR INTERIOR : LEATHER & FABRIC PROTECTION

Using the latest nano technology, **CS Quartz Leather Coat** protects your car's leather upholstery like no other product in the market. Not only does it penetrates and rejuvenates the leather, **CS Quartz Leather Coat** also forms a layer of protection on top of the surface that prevents the leather's moisture from escaping, ensuring the leather retains its soft and natural texture. This layer is also hydrophobic and UV resistant and restores your leather to its tip-top condition.

CS Quartz Fabric Coat is also based on the latest nanotechnology and its hydrophobic characteristic protects car fabric material against liquid, dust and dirt stains. **CS Quartz Fabric Coat** does not affect the looks, texture, breathability of the coated fabric.

CAR EXTERIOR : CRYSTAL GLASS COAT

Unlike car waxes and sealants which utilizes oil-based component as the main ingredient, crystal glass coat utilizes silicon as the main ingredient. A good quality protective crystal glass coat layer consists of Silicon Dioxide (chemical formula: SiO_2) (O_2 : oxygen).

CS Quartz Crystal Glass Coat only utilizes the highest standard of industrial grade SiO_2 without any impurities as the quality of SiO_2 is the most important factor for a good crystal glass coat to retain its hardness and durability overtime. This enables **CS Quartz Crystal Glass Coat** to be inorganic, fully transparent and provide the finest mirror-gloss finish, which makes **CS Quartz Crystal Glass Coat** the most unique and outstanding brand among other competitor in the market.

CS Quartz Crystal Glass Coat is also applicable to car exterior plastic trims and rubbers, chrome liners, alloy wheels and headlights.

CS Quartz Windshield Treatment forms a durable, cross-linking bond to glass and other silica-based surfaces, providing the utmost resistance to chip, scratch and mar.

CS Quartz Windshield Treatment creates an immense amount of surface tension on glass surfaces that water will simply bead up and roll off at speeds above 80 kph, rendering your windshield wipers virtually useless at highway speed.

WINDSHIELD TREATMENT
